

BERGER

Berger, making it easier for consumers to choose colour

Your one stop Berger source for colour, Products and Service

Berger Paints is making it easier for consumers to choose colour combinations, with the launch of Berger Ezycolour 4 Pics; a new and innovative service for both residential and commercial properties. Selecting the right colour combination can be a challenging task for many consumers, considering the thousands of colours available today. Berger believes that choosing colour schemes should be an easy and a pleasurable experience and Berger Ezycolour 4 Pics aims to do just that by providing four clean, professionally done digital images of any property, in any colour combination, in just 72 hours.

Consumers just need to email digital photographs of their painting projects, in a resolution 300-dpi or higher JPEG, indicating any 4 colours for consideration. Berger's colour experts will get back to you in 72 hours providing consumers with four options; each in a 3-colour harmonious combination, making it easy for consumers to have a very good picture of how their property would look in 4 different colour combinations; all before painting.

To enhance user experience, Berger Ezycolour 4 Pics Berger is also offering free colour advisory service to consumers who have no idea what colour combinations to choose. In keeping with the company's long held slogan of "lasting beauty and protection", Berger also offers free technical advice and quotations.

To access Berger Ezycolour, send an email to colouradvisors@gmail.com or visit Berger Caribbean on Facebook where décor ideas are just a click away; and to top it off, these services are absolutely FREE!
