SURFACE PREPARATION

Poor surface preparation is the root of most paint problems.

Start with ensuring the surface is sound, clean, dry and free from dirt, grease and any other contaminant. Based on the material being painted apply either **BERGER Concrete Primer**, **BERGER Metal Primer** or **BERGER Wood Primer** to new or repaired surfaces for a more durable finish.

PAINT APPLICATION

- When using more than one pail of a colour of paint, combine the containers for better uniformity of colour.
- Always stir paint thoroughly before use. Keep all unused paint in sealed buckets.
- Apply two coats using a brush or roller. When necessary thin **Berger Magicote Flat Emulsion** with no more than 10% of clean water. For **Berger Magicote Gloss Paint** thin no more than 10% using **Berger #2 Reducer**.
- Drying time for **BERGER Magicote Flat Emulsion** is 15 minutes, and recoating time one hour. Drying time for **BERGER Magicote Gloss Paint** is 4-6 hours and recoat time of 18 hours. Hard dry in 24 hours.
- Clean brushes and rollers with warm soapy water after use with **BERGER Magicote Flat Emulsion**. Use **BERGER #2 Reducer** to clean brushes used with **BERGER Magicote Gloss Paint**.
