## CREATING THE MOOD

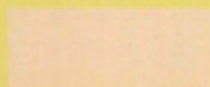

Every home has its own character, and combining or contrasting colours can be the point of departure that gives an interior its individuality, and a personality of its own. Colours can evoke a variety of emotions, accentuating and highlighting a

room's unique features. Light colour such as light blues, lavenders and light greens, suggest a quiet, restful mood, whereas warm colours such as creams, yellows and apricots suggest cheer and warmth. Bright colours such as dark earth tones, burnt orange and deep blues inspire excitement, opulence and exhilaration, and serve beautifully as primary or accent colours. Whatever the desired mood, striking effects can be achieved through the Berger Colour World Tinting System, offering thousands of colour choices. Remember to ask for lightfast colours when painting exterior surfaces as they maintain their original colour longer.

FOR FREE TECHNICAL AND COLOUR ADVISORY SERVICE ask Berger's technical adviser and trained colour consultants to help you on anything from paint a single room, to the specification for an industrial complex.

LOW SHEEN EMULSION

**BERGER 303 & BERGER EVERGLOW** Premium low-odour paints have been specially formulated to provide superior durability, excellent fungal and algal resistance on both exterior and interior surfaces. Exceptional beauty, proven performance, premium quality.

Flat Emulsions have no sheen, create a sense of warmth in a room and help to mask surface irregularities and imperfections, making BERGER 303 the ideal flat emulsion for ceilings and walls. Low sheen paints provide a more durable, stain resistant, scrubbable finish that can withstand frequent washings, making BERGER Everglow Low-Sheen an excellent choice for kitchens, bathrooms and surfaces that attract fingerprints and grime, including window frames, door, wood-trim and frequently used concrete surfaces. BERGER 303 and BERGER Everglow are water-based, easy to apply and clean-up. In addition their non-flammable, low-odor and non-yellowing, formulations offer excellent crack and peel resistance, fast drying time, and are mercury and lead free.
