

BERGER
Metal Primer - Zinc Chromate (Red Oxide)

Product Description

BERGER STERILIZING SOLUTION is a solution created to chemically destroy any fungus, or mildew that may be remaining on a surface after the fungus was removed with a coarse or wire brush. This is to ensure that the surface is sterilized before repainting.

Design Use

Areas of Use: Exterior
Substrate: Concrete, aluminium, or zinc(galvanized iron), nailheads on metal roofs.

Physical Data

Finishes: Not applicable
Colour: Not applicable
Spread Rate: Not applicable
Drying Time: Not applicable
Gloss Levels: Not applicable

Application Data

By brush or swab

Berger Sterilizing Solution should be applied by brush or swab and allowed to remain on the surface for at least 30 minutes. The Sterilizing Solution should then be washed off the surface, and the concrete allowed to dry before re-coating with an emulsion of your choice. If the area is one that is particularly prone to fungus attack, then the surface should be re-coated with **Berger Rubberized Enamel**.

Coverage: 7 - 9 sq. metres per litre, 300 sq. feet per US gallon
Drying Time: Not applicable

Additional Information

Thinner: Detergent and water (thinning not recommended)
Storage Instructions: Store in a cool, shaded dry area
Flash Point: Not applicable
Shelf Life: Not applicable
Pack Size: 3.8 litre

Surface Preparation

Abrasively remove all fungus from wall with wire or very stiff brush. Wash area with detergent solution to remove fungus and dust particles.

N.B.: It is most important that the surface treated with Sterilizing Solution is painted the same day. When recoating is unavoidably delayed, it is strongly recommended that the surface should be retreated in the method outlined above.

Health and Safety Instructions

READ INSTRUCTIONS CAREFULLY BEFORE USE.

Do not take internally. Liquid paint and vapours may cause irritation. Use only with adequate ventilation. To ensure the entry of fresh air, open all windows and doors. If headache or dizziness is experienced use respiratory protection or leave area for fresh air. Avoid contact with skin and eyes.

HEALTH & SAFETY: Water based.

First Aid

Ingestion:	Do not induce vomiting. Get medical attention immediately.
Inhalation:	If excessive exposure symptoms are experienced, leave area to obtain fresh air. If difficulty continues, seek immediate medical attention.
Eye Contact:	Flush immediately with water for at least 15 minutes.
Skin Contact:	Wash thoroughly with soap and water.

RECOMMENDED PAINT SOLUTIONS STEP 1

Apply 1 or 2 coats of **Berger Sterilizing Solution** to properly prepared surface.
